

About Prorata Zimbabwe

Prorata Zimbabwe is a leading property development and investment company specializing in luxury residential, commercial, and lifestyle hotel projects across Zimbabwe.

Founded with a vision to reshape urban living spaces, the company combines innovative design, high-quality construction, and sustainable development practices to deliver landmark properties that enhance communities and create long-term value for investors.

Established in 2021, Prorata Zimbabwe provides a comprehensive, one-stop solution for civil and structural engineering services. Our multidisciplinary team of experienced engineers, designers, and technical specialists works closely with clients and contractors to deliver efficient, reliable, and forward-thinking engineering solutions.

Our portfolio includes residential estates, mixed-use developments, and signature lifestyle hotels designed to create unique experiences for residents, guests, and investors alike. Through strategic planning and technical expertise, we aim to drive modern infrastructure development across Zimbabwe, with long-term ambitions to expand our projects and partnerships internationally.

Prorata Zimbabwe offers a wide range of engineering and development services, including excavation design, structural design for buildings, temporary works design, ECM design, periodic building inspections, architectural design for both new developments and reconstructions, and alternative design solutions for tendering. By integrating engineering excellence with visionary property development, Prorata Zimbabwe continues to contribute to the growth of sustainable and innovative built environments.
